Hand 3 -- NON Hand Call

Video Number: 1362
Rating: 9.1

-- Caller (female player named Merna) tells a story about a hand from last year at Toronto Woodbine, where she got it all in preflop with a guy on the BTN when he had AK w the ace of spades. She had AQ off. Board came out KJ4T2 and she thought there were four spades on the board, so she thought she lost. She goes to muck her hand face down but the player to her left (not involved with the hand)

stops her from mucking and tells her she has the winning hand. Then she realizes that there are only three spades on the board.. But if the guy next to her hadn't stopped her she would have 100% mucked her hand she says. The opponent in the hand was very pissed off.
