### 8:00 -- Some strategies vs maniacs

#### Preflop Strategy

- Value of implied hands goes down
- Overlimp some hands because people might be limping to trap
- Isolate the maniac thinner for value EP v EP
- Only good players adjust well (Hand 1)

#### Postflop Strategy

- Watch River showdowns
- If they are polar call with bluff catchers
- Proper bluff catchers before river are hands that can improve
- 5th street chicken might go out the window
- Its easier to bluff catch headsup than multiway
