- \$10k CLP Freeroll on 5/17/26 at 8:00PM ET ClubWPTGold Code Bart
- CLP Meetup 6/6 early afternoon
- Chasers PLO tourney
- Trip to Manhattan 5/2 - 5/4
- Trip Report Copenhagen

**Twitter Question** -- In a \$100 pot we have 65dd on btn after calling a UTG preflop raise. Board Ks 7c 3h. UTG pots \$100. We know he has AA and will stack off. What is the min eff stack on the flop before the bet to make a call profit?

**Twitter Answer** -- 4-out gutshot gives us 4/45 unseen cards ( $1/11.25$ ) = 10.25-to-1 needed pot odds. The \$100 turn bet means we need to win  $> \$1,025$ . Already \$100 in the pot, so min effective stack is \$925.01 to "profit".

### Hand 1: \$2/\$5+\$10 EBH \$1230eff

PRE: 2 limps, Hero raises \$50 Qc Qs HJ, CO calls, limpers call \$210.

FLOP: Qd 5c 4h x/x Hero \$80, CO calls, limper calls. \$450

TURN: Kc x Hero \$270, CO calls, limper jams.. Hero jams.. CO folds.

RIVER: 5h Hero wins vs 44 but CO folds 76cc!!

### Hand 2: \$2/\$5+\$10 EBH \$1200eff

PRE: 3 EP limps, Hero overlimps BTN Ac 9d, STRD checks. \$50

FLOP: Ah 6s 6d x/x, +1 bets \$30, Hero calls HU. \$110

TURN: Qc x Hero \$80, +1 calls. \$270

RIVER: Kh x/ Hero bets \$355.. +1 flashes A and folds.
